

DENTON COORDINATED ACCESS NETWORK

PERMANENT HOUSING & AVAILABLE COMMUNITY SUPPORTIVE SERVICES

The Denton Coordinated Access Network (CAN) is a system that reduces the number of entry points for the homeless or those at risk of becoming homeless.

Entry Points will have trained individuals to screen, determine needs and refer to available services.

HOW YOU CAN HELP:

1. Refer Individuals to the Entry Points.
2. If you offer services keep the Entry Points up to date about your resources.
3. Share this information with as many organizations as possible.

DENTON COORDINATED ACCESS NETWORK

SERVING THE HOMELESS AND THOSE AT RISK OF HOMELESSNESS

The Denton Coordinated Access Network (CAN) is a system that reduces the number of entry points (front doors) for the homeless or those at risk of becoming homeless reducing duplication of services and virtually eliminating the need for an individual or family to have to be bounced around from place to place

Entry Points will have trained individuals to screen clients using a standardized intake and assessment tool. This client centered approach will more efficiently determine the needs based on the client before resources are committed. It does not guarantee the community will have what the client needs but it does reduce duplication of services that deplete available resources and the amount of time it takes for a clients needs to be identified.

HOW YOU CAN HELP:

1. Refer Individuals to the Entry Points.
2. If you offer services keep the Entry Points up to date about your resources.
3. Share this information with as many organizations as possible.

PERMANENT HOUSING & AVAILABLE COMMUNITY SUPPORTIVE SERVICES

Once a client is assessed then the front doors go to work providing diversion or prevention through case management and referral to other available community resources.
